

Retina VesselNet

Giovanni Gamaliel López Padilla

29 de mayo de 2022

Introduction

Introduction

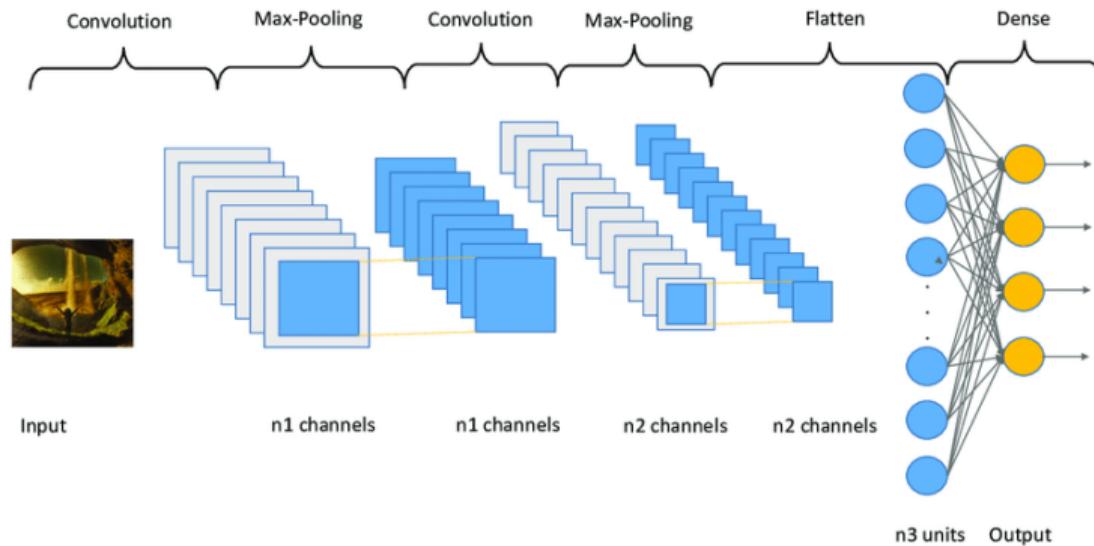

Figura 1: Convolutional neural networks.¹

Introduction

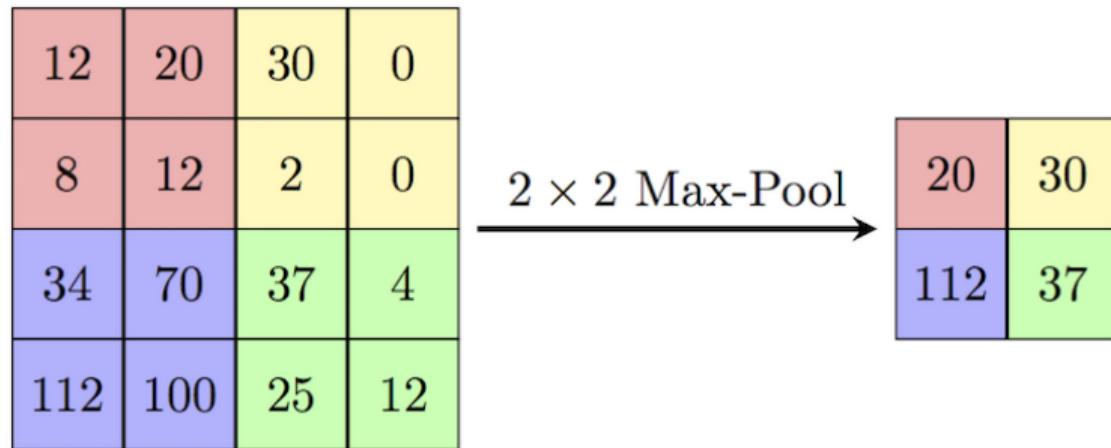

Figura 2: Max pooling layer.

Introduction

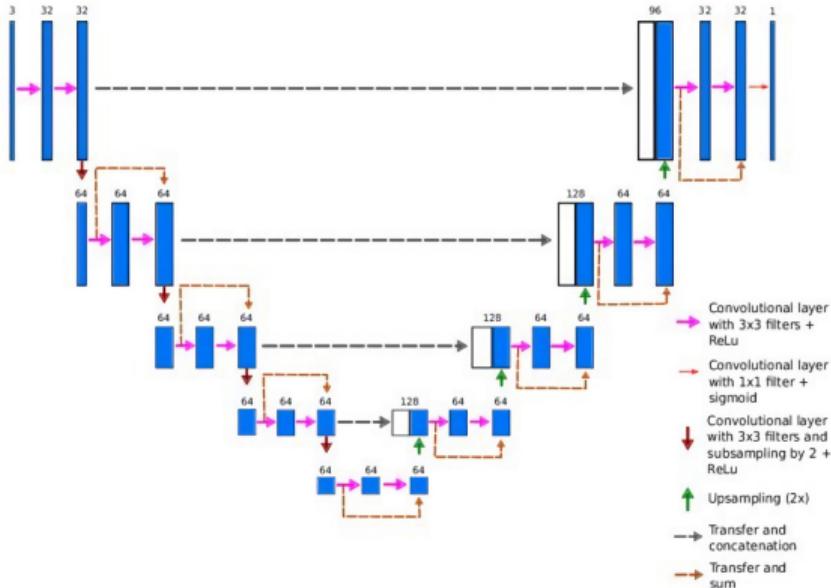

Figura 3: UNET model.²

Methods

Methods

(a) Residual block

(b) Inverted residual block

Figura 4: MobileNet v2.

Methods

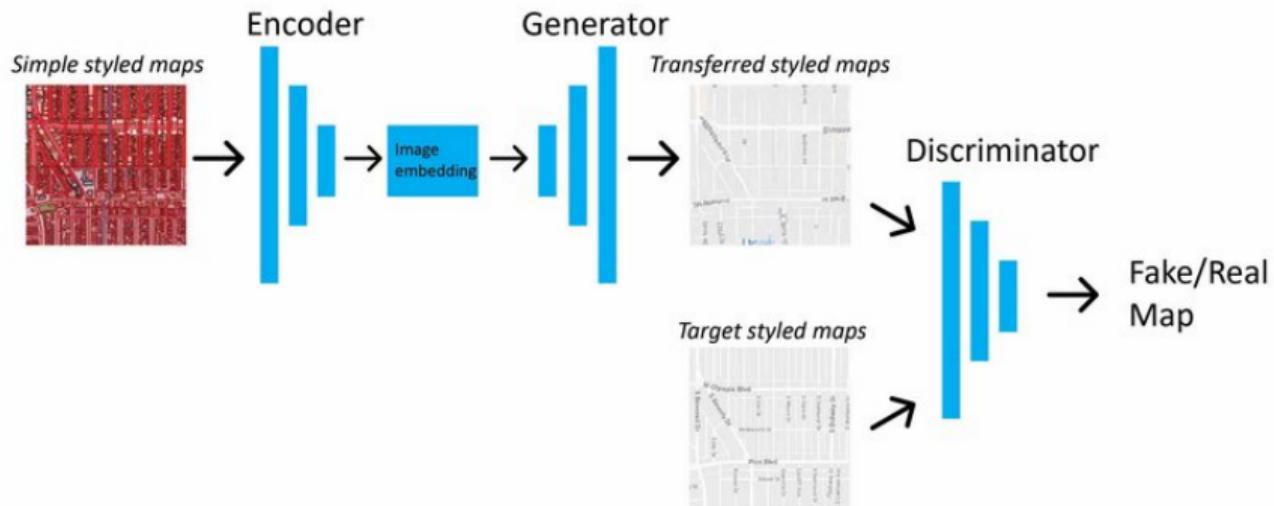

Figura 5: pix2pix model.

Methods

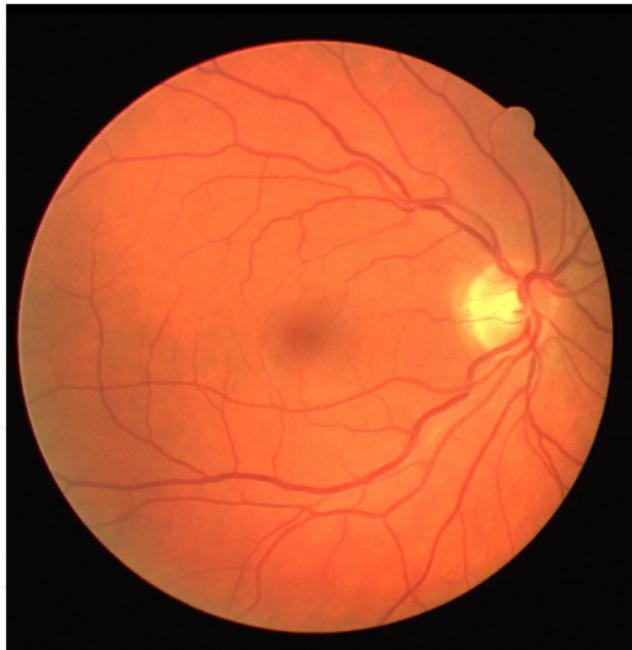

Figura 6: Model with MobileNetv2 and pix2pix.

Methods

(a) Original image

(b) High contrast image

Figura 7: Train images.

Methods

(a) High contrast image

(b) Capillary vessels

Figura 8: Input and output model.

Results

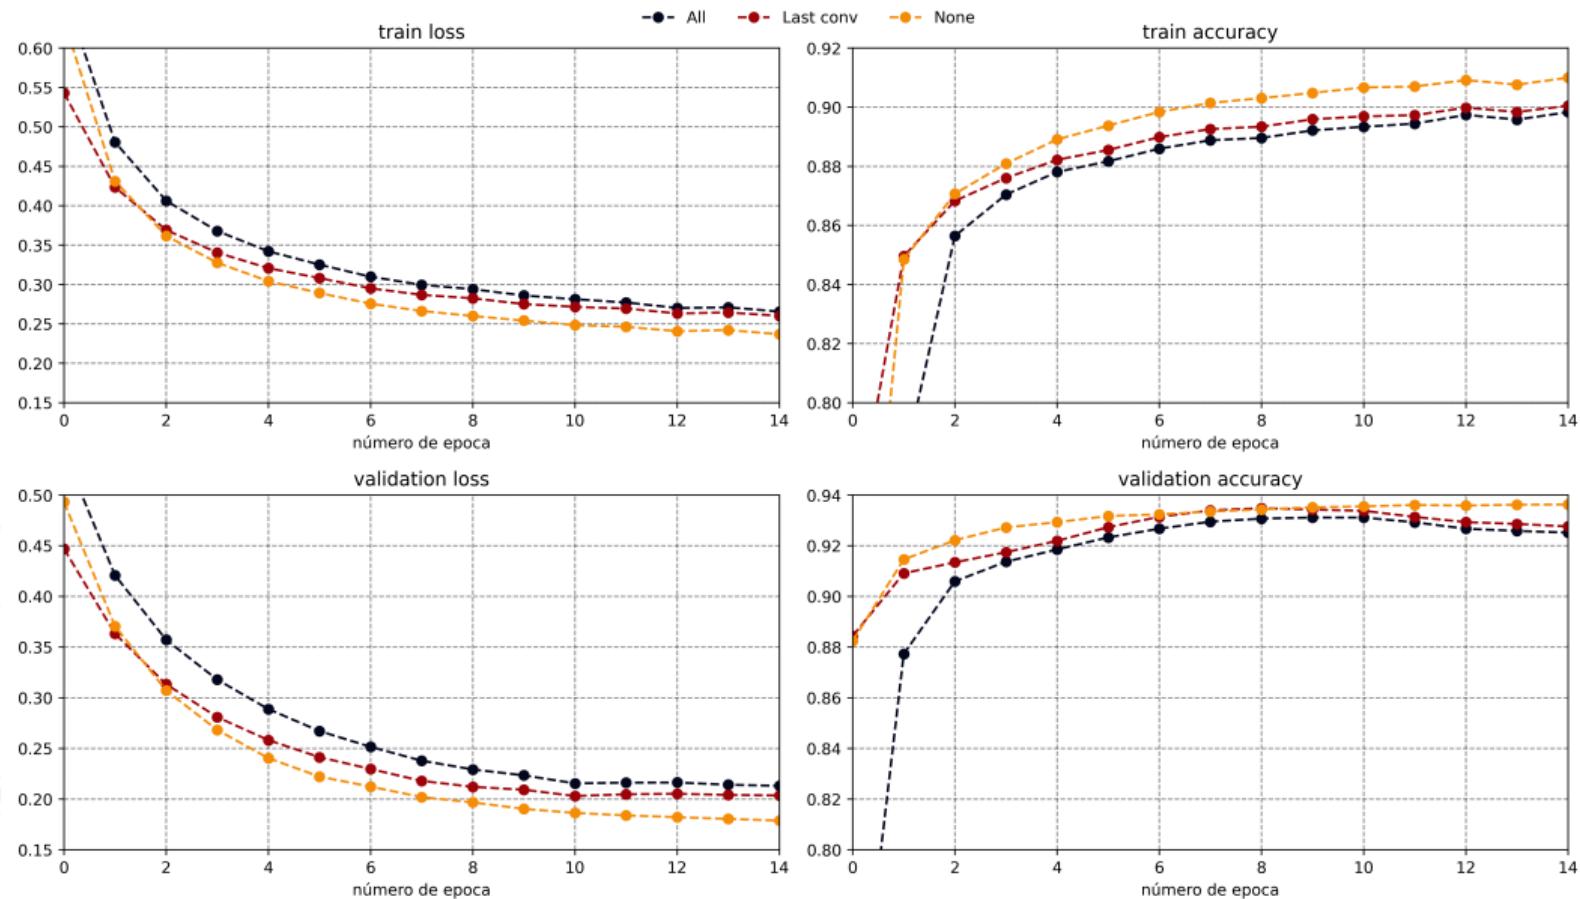

Figura 9: History from original images as input model.

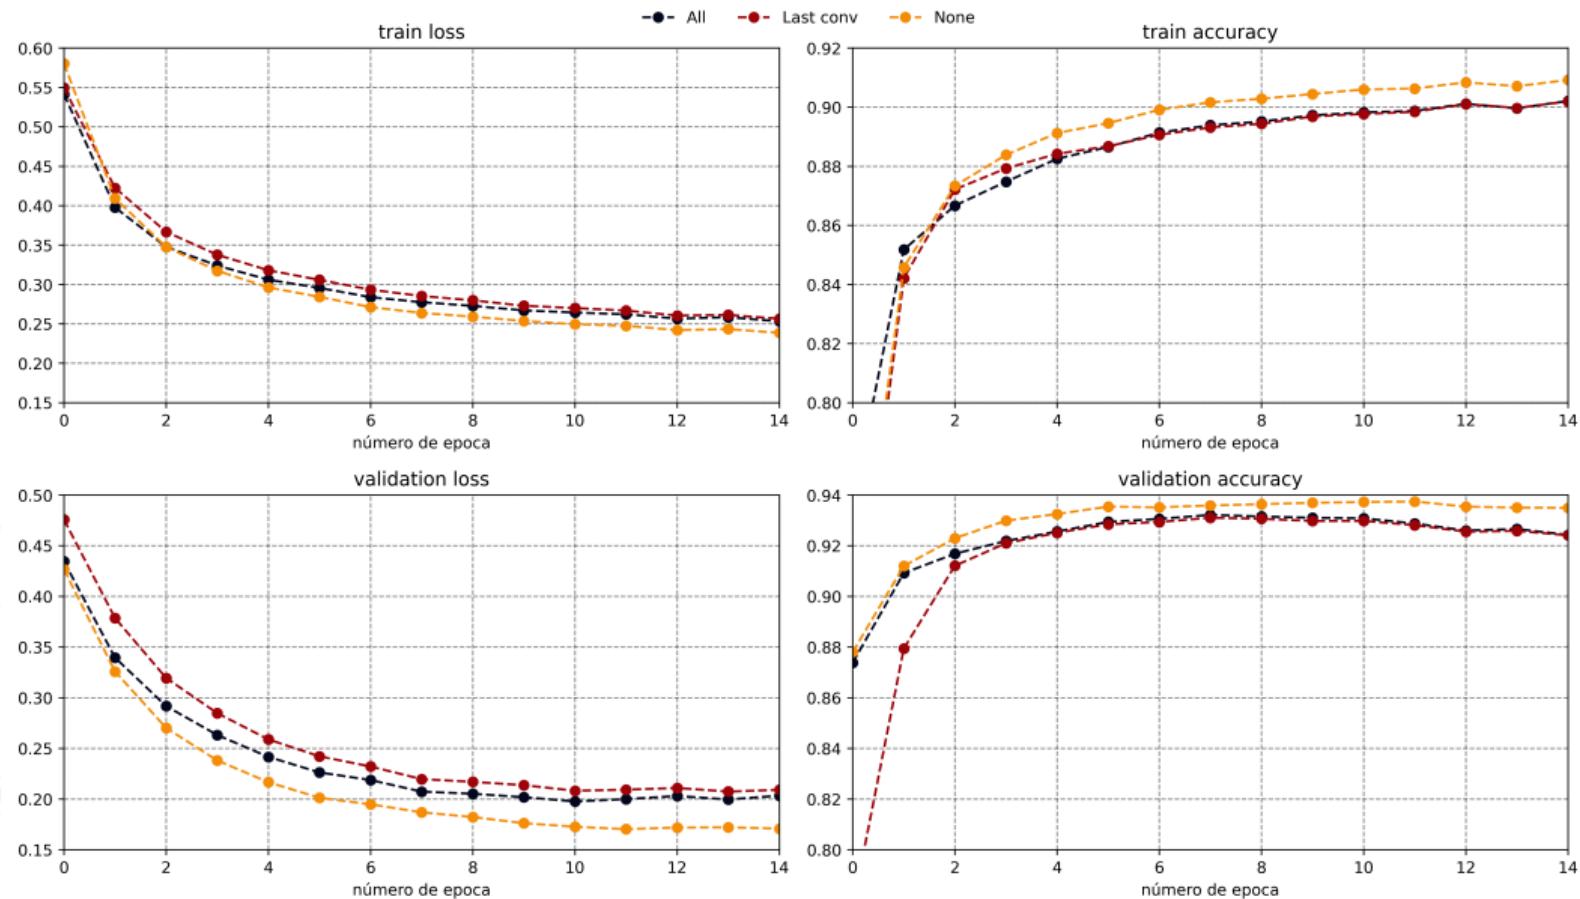

Figura 10: History from high contrast images as input model.

Figura 11: Results from original images as input model.

Figura 12: Results from high contrast images as input model.
